

We wanted to take the opportunity to give a quick run down to explain what facilities are currently open in the town of Easton and give a quick explanation on summer programming.

Field Info

- The Easton Park & Rec Department has opened the tennis courts on Sport Hill Road for singles play only. Please see specific rules below.
- We have also opened our Lower Veteran's Park sport fields. This area has a soccer field with a single goal and a regulation baseball field. Please note, it is open for family based passive recreation only. When our signs were printed the original guideline stated groups of 5 or less, an updated guideline sent out Tuesday (5/19) states that outdoor recreation should be kept to members within your household only. This means that small groups of friends are not currently permitted.
- Aspetuck Park on Black Rock Road has been open for family based passive recreation throughout the process, the baseball fields at Aspetuck are not currently open.
- No other fields in the town of Easton are currently open and basketball courts remain closed.
- The dog park has remained open with social distancing rules and regulations.
- No organized team sports through June 20, 2020

Programming Info

The Park & Recreation Department, Commission, 1st Selectman and Director of Health have decided that our summer programming will be very limited. As of today, we will not be offering Easton Sunshine Day Camp, Adventure Camp or any sport camps this summer. Our department is working on scheduling a few half day, programming oriented camps which we are hoping to run in mid-July. These camps will have limited registration, will run from 9:00am -12:30pm with a lunch period and be held outside at the Park & Rec office. In cases of inclement weather, the program will be cancelled.

As we head into this holiday weekend, we ask all residents to please adhere to the Executive Orders put forth by the state, along with the rules and guidelines printed below and posted at locations throughout town. We understand that this is a difficult time for everyone, we all want nothing more than to get out and enjoy the town. If all residents adhere to the rules and policies put in place, we will have an even higher chance of opening more fields and facilities in the upcoming weeks. That is our goal. Working together as a town, we can all get through this optimally.

Sincerely,

The Park & Recreation Staff
